

**STATE OF NORTH DAKOTA
OFFICE OF ATTORNEY GENERAL**

Criminal Justice Statistics Special Report

Homicide in North Dakota, 2006

**Attorney General
Wayne Stenehjem**

Report prepared by
Colleen Weltz
Bureau of Criminal Investigation
Information Services Section

September 2007

The term "homicide," for purposes of this report, includes the Uniform Crime Reporting (UCR) offenses of murder and non-negligent manslaughter. Homicide refers to the "willful killing of one human being by another." It does not include attempts to kill, assaults to kill, suicides, accidental deaths, justifiable homicides or deaths caused by gross negligence.

HOMICIDE IN 2006

- In 2006, eight homicide deaths were known to the Uniform Crime Reporting (UCR) program. Based on a state population estimate of 636,000, the resulting homicide rate for the state of North Dakota was 1.3 per 100,000 population. See Table 2 on page 3 for information regarding rates for previous years.
- **Victim Gender:** Four of the homicide victims were male.
- **Victim Age:** Six of the victims were adults. "Adult" is defined as a person aged 18 or older. See Table 1 on page 2 for a summary of homicide incidents in 2006.
- **Weapons:** Firearms were involved in the death of one homicide victim. In 4 homicides, the weapon involved was a knife.
- **Domestic Violence:** Four of the eight homicides in 2006 resulted from domestic violence incidents. See definition on page 10.
- **Assailant Gender:** Six of the seven identified assailants were male.
- **Assailant Age:** All of the identified assailants were adults.
- While tribal law enforcement agencies and any other federal law enforcement entities in the state do not participate in the state UCR program, every effort is made to include all homicide incidents occurring within the state's borders.

**Table 1
Summary of Homicide Incidents
North Dakota, 2006**

Date & Location of Incident	Victim(s)		Assailant(s)		Weapons Used	Relationship of Victim to Assailant	Circumstances
	Age	Sex	Age	Sex			
1-21-2006 Standing Rock Reservation	57	M	34	M	Personal Weapon	Acquaintance	Victim suffered severe trauma to head and face.
2-16-2006 Mandan	NB	M	25	M	Personal Weapon	Child	Blunt force trauma to head. Domestic Violence
3-15-2006 Williams County	53	F	21	F	Knife	Mother	Argument Domestic Violence
6-3-2006 Bismarck	47	F	43	M	Knife	Wife	Domestic Violence
6-17-2006 Fargo	24	M	22	M	Handgun	Friend	Argument
9-12-2006 Valley City	22	F	34	M	Knife	Neighbor	Unknown
12-2-2006 Fargo	2	M	Unknown				Blunt Force
12-26-2006 Grand Forks	26	F	24	M	Knife	Girlfriend	Murder-Suicide Domestic Violence

HOMICIDE TOTALS AND RATES

- Table 2 on page 3 provides yearly homicide totals and homicide rate information for North Dakota during the period 1978-2006.
- The average number of homicide deaths per year during this period is 11.

Table 2
Homicide Rate
North Dakota, 1978-2006

Year	Homicide Total	Population Estimate	Rate/100,000 Population
1978	10	651,000	1.5
1979	13	652,000	2.0
1980	13	652,700	2.0
1981	17	652,200	2.6
1982	6	670,000	0.9
1983	18	680,000	2.6
1984	12	686,000	1.7

WEAPONS AND VICTIM CHARACTERISTICS

- Fifty percent of deaths due to homicide during the period 1978-2006 resulted from firearm use. See Table 6 below.
- In homicides involving firearms, the weapon was more likely to be a long gun than a handgun.
- Thirty-four of the 321 total homicide deaths involved the use of "personal weapons." Personal weapons include the use of hands, fists and feet as weapons.

**Table 6
Weapons of Homicide

Total 1978-2006	69	90	56	21	34	51	321

- Firearms were used in 39 percent of the homicides of juveniles. Fifty-two percent of adult deaths due to homicide involved firearms. See Table 7 below.
- Forty-six percent of homicides of males and 54 percent of homicides of females involved the use of firearms. See Table 8.
- Twenty percent of homicides of males and 14 percent of homicides of females involved knives.

Figure 2
Homicides by Month of Occurrence
North Dakota, 1978-2006

DOMESTIC VIOLENCE DEATHS

For purposes of this report, domestic violence deaths include those involving a spouse, former spouse, parent, child, persons related by blood or marriage, persons in a present or former dating relationship, persons who are presently residing together or have resided together in the past, persons who have a child in common regardless of whether they are or have been married or have lived together at any time, other persons on premises when a domestic incident occurs, and romantic triangle situations.

- For the period 1978-2006, 51 percent of deaths due to homicide involved domestic violence.

Table 10
Domestic Violence Deaths
North Dakota, 1978-2006

Year	Domestic	Non-Domestic	No Assailant Identified	Homicide Total
1978	5	4	1	10

CLEARANCE RATES

- Cases may be "cleared by arrest" of an assailant, or "cleared exceptionally," if a physical arrest cannot be made for reasons beyond the control of law enforcement. An example of an exceptional clearance would be a case in which the assailant committed suicide after killing someone.
- "Clearances" should not be interpreted as "convictions." The information regarding clearances, collected through the Uniform Crime Reporting (UCR) program, reflects law enforcement activity. If an arrest is made, the UCR program considers the case cleared. UCR data does not reflect the results of prosecution of assailants.
- The average clearance rate for homicides in North Dakota during the period from 1978 to 2006 is 93 percent.

Table 13
Clearance Rates for Homicides
North Dakota, 1978-2006

IDENTIFIED ASSAILANT CHARACTERISTICS - GENDER

- During the period 1978-2006, 90 percent of the 317 identified homicide assailants were male.
- Eighteen homicides during 1978-2006 have not had an assailant identified by law enforcement.

WEAPONS AND IDENTIFIED ASSAILANT CHARACTERISTICS

- In homicide incidents involving firearms, juvenile assailants were much more likely to use firearms other than handguns. For adults, long guns were used more often than handguns.
- Male assailants were more likely to use firearms in homicide incidents, while females were more likely to use knives.
- For incidents involving the use of firearms, male assailants were more likely to use rifles or shotguns than handguns. Conversely, females were more likely to use handguns than other types of firearms.
