Crime in North Dakota, 2014

Wayne Stenehjem Attorney General

Prepared by Colleen Weltz NIBRS/UCR Program Manager 2015

#### INTRODUCTION

The North Dakota Incident-Based Reporting (IBR) program involves the collection, compilation, and analysis of crime and arrest statistics reported by the various local law enforcement agencies throughout the state. Fifty-two sheriffs' departments, 53 police departments and the ND Highway Patrol reported to the ND IBR program in 2014.

Every effort is taken to include the homicide offenses that occur on the Tribal Law Enforcement jurisdictions. No arrest figures for reservations in the state are included in these totals. Tribal law enforcement agencies do not participate in the state ND IBR program.

**INCIDENT-BASED REPORTING:** North Dakota law enforcement agencies use a standard incident form to collect data on each incident reported to their respective agencies. Data collected includes: type of incident, where and when the incident took place, victim characteristics, suspect/arrestee characteristics, property involved in the incident, etc. A total of 105 police departments and sheriffs' departments along with the ND Highway Patrol reported incident data for all or part of 2014.

To allow for comparison among several geographic or jurisdictional areas with differing populations or to allow comparisons across time in an area undergoing population fluctuations, the ND IBR program provides for the calculation of crime rates to remove any potential biases created by population differences. Because a rate relates the incidence of activity to population, it is possible to measure annual fluctuations in criminal activity by comparing rates of crime reported in any given year with those reported in other years. National publications report crime rates calculated based on the number of reported offenses per 100,000 population. This publication provides crime rate information calculated in the same manner.

#### **Trends**

The 2014 Crime in North Dakota is based solely upon incident data. Data submitted by ND IBR to the FBI is converted from incident based statistics to the summary system of reporting. In the FBI data, only the most serious of the eight Index crimes are reported. The number of victims is counted in the most serious offenses of homicide, assault, kidnapping or rape. We strongly discourage attempting to compare the ND IBR data for 2014 to any data previously released by North Dakota or the FBI in the Crime in the United States publications. The data sets are not comparable due to the number of types of crimes reported and that offenses in the incident are reported in ND IBR.

#### **Differences between ND IBRS and FBI released data**

The Crime in North Dakota 2014 is our first crime statistic publication using the National Incident-Based Reporting System (NIBRS). There are important factors that must be considered when reading or using this report as well as crime statistic reports available from the FBI or other sources:

- 1. The data used to compile this report are based on a "snapshot" of ND state repository database as of May 1, 2015. In NIBRS, there are no 'fixed" statistics because law enforcement agencies update their incidents as new information becomes available
- 2. The data used in this report are based on the NIBRS method of submitting crime statistics. It is more comprehensive and detailed than the Summary Reporting System used in the past so the statistics in NIBRS and Summary Reporting should not be compared.
- 3. The data displayed in this report should not be compared to the FBI Crime in the US 2014 report which will be published later this year. Even though North Dakota forwards the crime data submitted via NIBRS to the FBI, the FBI converts that data to the Summary Reporting System and the offenses are counted differently.
- 4. The data displayed per agency in this report should not be used to compare to other agencies or compile "ranking" of cities and counties. There are several variables which contribute to crime in a particular jurisdiction, including the demographics/economics/cultural make-up the population, of the local industrial/economic base, its dependence upon neighboring jurisdictions, transportation system, its economic dependence on non-residents (such as tourist, shoppers, or other day-time visitors), and its proximity to military installations, correctional facilities, universities/colleges, or state hospitals.

#### **Classification of Offenses**

All offenses are classified on the basis of law enforcement investigation in accordance with national NIBRS offense definitions and are not necessarily identical to the NDCC definitions. Because NIBRS identifies and tallies law enforcement contact, offense classifications are not based on filings of the prosecutor, court, medical examiner, jury, or other judicial or subsequent findings.

#### **National Incident-Based Reporting System (NIBRS)**

NIBRS divides offenses into two (2) categories of offenses designated as Group A - Incident and Group B -Arrest.

- 1. The Group A offenses collected in the NIBRS program are: Arson; Assault; Bribery; Burglary; Counterfeiting/Forgery; Destruction/Damage/Vandalism of Property; Drug/Narcotic Offenses; Embezzlement; Extortion/Blackmail; Fraud; Gambling Offenses; Homicide Offenses; Kidnapping/Abduction; Larceny/Theft Offenses; Motor Vehicle Theft; Pornography/Obscene Material Offenses; Prostitution Offenses; Robbery; Sex Offenses; Non-Forcible Sex Offenses; Stolen Property Offense and; Weapon Law Violations. Group A offenses include statistical data on the incident, all offenses committed, property involved, weapons involved, victim and offender demographics, arrest information, and clearance status.
- 2. Group B offenses, for which only arrest data are collected, include: Bad Checks; Curfew/Vagrancy Violations; Disorderly Conduct; Driving Under the Influence; Non-Violent Family Offenses; Liquor Law Violations; Peeping Tom; Trespass of Real Property; and All Other Non-Traffic Offenses.

#### **Counting Offenses**

For counting purposes, agencies should count one offense for each victim of a Crimes Against Persons, one offense for each distinct operation of a Crimes Against Property (with the exception of motor vehicle theft, where one offense is counted for each stolen vehicle), and one offense for each Crimes Against Society. All crimes committed within the same incident by the same person or group of persons, without a significant time or space interval separating them, are reported in NIBRS - a hierarchy rule does not exist as it does in Summary Reporting. For example, if a rape case involves crimes of motor vehicle theft and kidnapping, all crimes are reported. However, if a crime is an inherent part of another crime, only one crime may be appropriately reported. For example, larceny is inherent in the crime of burglary and would not be reported as a separate crime in the incident; however, if the suspect, upon leaving the residence, takes items outside the structure, larceny would be reported as a second crime. As another example, assault is an element in robbery and would not be reported as a crime separately from the robbery; however, if the suspect forces the victim to engage in a sexual act, both a robbery and forcible sex offense would be reported because a forced sexual act is not an element of robbery.

#### **Arrests**

In NIBRS, the law enforcement agencies collect detailed data elements related to incidents and arrests. The Group A - Incident Reports are comprised of segments (Administrative, Offense, Property, Victim, Offender, and Arrestee) and within the segments are multiple data elements identifying the incident, such as originating agency identifier (ORI), incident number, date, location, offense, demographics, and other relevant segment categories. Therefore, unlike Summary Reporting, NIBRS arrests and clearances can be submitted as updates to the Group A - Incidents reported.

#### Clearances

In NIBRS, clearances are based on the incident-level rather than the offense-level. If one offense within an incident is cleared, all offenses in that incident are cleared. Likewise, the arrest of one offender in an incident will clear it even if other offenders have not been arrested yet. Clearances by arrest are automatically created when an Arrest Segment is submitted with a Group A - Incident. An incident cannot be cleared exceptionally if there has been an arrest. Not all crimes are cleared within the calendar year in which the offense occurs.

Clearances by Exceptional Means allow an agency to clear an incident without an arrest. The criteria include: 1) the identity of at least one offender must be known; 2) sufficient probable cause must have been developed to support the arrest and prosecution of the offender; 3) the offender's exact location must be known, and; 4) there must be a reason, outside of law enforcement's control, which prevents the arrest. For example, the death of the offender or the offender is in the custody of another jurisdiction.

Group A offenses includes the crimes of Arson; Assault; Bribery; Burglary; Counterfeiting/Forgery; Homicide Offenses; Destruction/Damage/Vandalism of Property; Drug/Narcotic Offenses; Embezzlement; Extortion/Blackmail; Fraud; Gambling Offenses; Robbery; Kidnapping/Abduction; Larceny/Theft Offenses; Motor Vehicle Theft; Pornography/Obscene Material Offenses; Prostitution Offenses; Sex Offenses; Non-Forcible Sex Offenses; Stolen Property Offenses and; Weapon Law Violations.

In 2014, 42,968 Group A offenses were reported by local law enforcement agencies. This is an increase of 6.8 percent from the total of 40,245 reported in 2013.

The Census Bureau estimate of North Dakota's population for 2014 is 739,482. Based on that total, the crime rate per 100,000 population for 2014 was 5810.6, as compared to 5563.4 for 2013.

More than 42.6 percent of Group A crime offenses were reported as cleared by arrest or exceptional means. The NIBRS program defines an offense as "cleared" by law enforcement when at least one person is arrested, charged with the commission of the offense, and turned over to the court for prosecution. Several crimes may be cleared by the arrest of one person, while the arrests of many persons may clear only one offense. Law enforcement agencies may clear a crime by exceptional means when some element beyond law enforcement control precludes the placing of formal charges against the offender. Examples of circumstances that allow such clearances are the death of the offender (suicide, justifiably killed by police or private citizen, etc.); the victim's refusal to cooperate with prosecution after the offender has been identified; or the denial of extradition.

In 2014, 13,600 arrests were reported for Group A crime offenses. Of that total, 13.4 percent were arrests of juveniles.

More than \$38.6 million worth of property was reported stolen in 2014, with 24.3 percent of that amount reported as recovered by law enforcement officials.

## **Crimes Against Persons**

Crimes Against Persons offenses are classified according to victim type which includes the offenses of murder/non-negligent manslaughter, rape, and assaults. For counting purposes, agencies should count one offense for each victim of a Crimes Against Persons (See the NIBRS offense definitions section beginning on page 159 of this publication for definitions of these and other offenses.)

In 2014, 8,645 Crimes Against Persons were reported in North Dakota. This is a 1.6 percent decrease from the 2013 total of 8,788 crimes reported. In 2012, 8,602 crimes were reported.

Crimes Against Persons offenses comprised 20 percent of reported Group A crime offenses in North Dakota in 2014.

The Crimes Against Persons crime rate for 2014 is 1169.1 per 100,000, as compared to 1214.8 per 100,000 in 2013. This is a 3.8 percent decrease in the Crimes Against Persons crime rate. In 2012, the Crimes Against Persons crime rate was 1229.5 per 100,000 population.

Over 51 percent of Crimes Against Persons offenses in 2014 were reported as cleared by arrest or exceptional means.

Of the 3,003 total arrests reported for Crimes Against Persons offenses, 12 percent were arrests of juveniles.

# **ARREST ANALYSIS**

### Arrests in 2014

Although primarily an indication of law enforcement activity, the number of arrests reported does provide a limited profile of the perpetrators of crime, especially for those crimes that have high clearance rates. Differing arrest practices, policies, and enforcement emphasis among agencies influence the volume of arrests for various offenses, particularly those against public order such as vagrancy, disorderly conduct, and related violations. However, arrests for serious crimes, e.g., robbery or burglary, are more likely to be uniform throughout all jurisdictions across the state.

The NIBRS program requires that an arrest be counted for each separate occasion an individual is taken into custody. Although several charges may be lodged against a person at the time of the arrest, only one arrest is counted for each time the person is taken into custody.

North Dakota law enforcement agencies reported 30,406 arrests in 2014. A total of 31,107 arrests was reported in 2013.

In 2014, over 12 percent of total arrests were arrests of juveniles. More than 73 percent of the total was arrests of males.

The total of 10,236 reported arrests for DUI and liquor law violations represents 33.7 percent of the total arrests reported in the state of North Dakota in 2014. Arrests for DUI decreased from 7,117 in 2013 to 6,705 in 2014. Liquor law violation arrests decreased 11.8 percent from 4,004 in 2013 to 3,531 reported in 2014.

More than 76 percent of total arrests were white; over 13 percent were Native American.

These statistics are provided by local law enforcement agencies that contribute to the North Dakota IBR program. No arrest figures for reservations in the state are included in these totals. Tribal law enforcement agencies do not participate in the ND IBR program.
