Re: Crime Laboratory Division Tours

Tours of the North Dakota Office of Attorney General – Crime Laboratory Division are limited due to the significant number of cases that need to be processed, concerns for the integrity, security and privacy of the evidence, and to eliminate extraneous sources of contamination. Additionally, there are chemical and biohazard risks involved in the processing of cases that we do not wish to expose to the public.

Public tours must be approved by the Laboratory Director or designee and are limited to groups of no larger than ten people who are at least high school age or older and are subject to Crime Laboratory Division personnel availability.

Contact the Crime Laboratory Division at 701-328-6159 for availability and any specific tour limitations.

A handwritten signature in blue ink, appearing to read "A. Robyn Quinn", is written over a horizontal line.

A. Robyn Quinn, M.S.
Lab Director
