

Intoxilyzer 80-004197

11 August 2011

On June 29, 2011, Jesse McKay picked up Intoxilyzer 80-004201 to be installed in Cando, Towner Co SO, and Intoxilyzer 80-004197 to be installed in Ft. Totten agency. I had labeled each instrument as to where it should be installed.

I called Ft. Totten to talk to Jacquie DeMarce about the intoxilyzer. She wasn't in so I spoke to Joe. Joe informed me that 80-004201 is installed at Ft. Totten, but 80-004197 is there as well. The wrong intoxilyzer was installed, but I told Joe to keep it installed and I'd take care of the necessary paperwork. I also called Towner Co SO and left a message with Misty that someone from their agency will need to pick up 80-004197 from Ft. Totten.

A handwritten signature in cursive script that reads "Deb Kashur".
